The data base for the publications is the BALTEX electronic publication library, accessible via the BALTEX homepage at www.baltex-research.eu. A book, journal article or report is qualified as a BALTEX publication, if either it describes results of a BALTEX project and BALTEX is explicitly referred to in the title, abstract, introduction or summary of the publication the publication makes explicitly reference to the programme, or if the publication contributes to at least one BALTEX Phase II objective, and the authors agree that their publication is listed on the BALTEX website and publication database.

At present, there are 11 books, 707 peer-reviewed journal articles, 65 reports, 811 Study Conference presentations with reference to BALTEX, as well as 55 issues of the International BALTEX Secretariat Publication Series.

Status as of 27 January 2015
